

# **ARE YOU A BADASS WHO WANTS TO PUT A DENT IN THE UNIVERSE?**

*If you are driven, fearless, and get sh\*t done...  
If you want to step up to dominate every day in a fast-paced environment...  
If you want to leave a dent in the universe by using your skills to change lives...*

*... then make sure to read this all the way through*

(And if those things don't describe you then you'll want to skip this and keep looking because you're not a fit and you'll get chewed up pretty quickly in our fast-paced environment).

We're an aggressive, dynamic, successful training and coaching organization specializing in the home service industry (including HVAC, Electrical, Plumbing, Restoration, Septic and Sewer, etc.). Our proven strategies and systems have created a flood of success stories, and that's just scratching the surface—you should see how our current clients are killing it in their businesses.

We've been around for over 5 years in public (and we were around for many years before that behind the scenes). We're still hungry like a start-up and we're growing at light-speed. Seriously. Have you ever seen a stampede of wild buffalo? It's like that. Times ten. Every day.

We need superstars who can jump into that fray fearlessly and get up to speed very quickly to help us deliver our very best to our clients. We need entrepreneurial, creative-thinking high-achievers who can match our pace.

**WHO WE'RE LOOKING FOR:** We're looking for the following movers and shakers. We need MULTIPLE POSITIONS of each one of these filled.

- Marketing coaches
- Call center coaches
- Vendor relations managers
- Content marketers

- Administrative support

(Frankly, if you are great at something that we haven't listed above, reach out anyway because we're growing so fast that we probably need your skills but this ad was published before we had time to put everything in.)

**WHO WE ARE:** Our clients come to us because they're tired of the boring trainers, consultants, and organizations who spew the same old crap that all their competitors are doing. Through our events, resources, coaching and consulting, we deliver exciting, fresh business growing ideas and help home service companies implement them. What we do is train, coach, and create, but what we really do is transform service businesses, including the owners and their employees. We don't just stop there, we also help them become better fathers and mothers, and live healthier lives. (After all, we believe that a successful business isn't an end in itself but a means to an end—a better life of wealth and freedom.)

We've built hundreds of proprietary strategies and systems that are unmatched in the market. And that's just scratching the surface: our team is currently building, implementing, testing, and proving another 343 strategies for our clients *just this year alone*. Our clients are excited about these and our competitors are SEVERELY UNDERESTIMATING how these will change the market. (And wait 'til you see what happens next year because this year will pale in comparison.)
